**WISE AND OTHERWISE**

Miss Elderleigh—"So you remarked to Katherine that I looked as old as the hills. Now don't deny it; I heard you." Jack Spott—"Oh-er but you misunderstand. I was merely comparing your age with that of the Hill young ladies I am acquainted with—twins you know."—Boston Transcript.

It's wiser being good than bad.—Browning.

"Couldn't we stretch a point about this game?" "Certainly; it is the rubber."—Baltimore American.

Great is the Tailor, but not the greatest.—Carlyle.

Matron—"Baby is crying, Mary. I expect he wants his bottle." Mary—"I just give it to 'im mum." Matron—"Did you? Then I expect he doesn't want it."—Judge.

We live in deeds, not years; in thoughts, not breaths; in feelings, not in figures on a dial. We should count time by heart throbs. He most lives. Who thinks most, feels the noblest, acts the best.

—Philip James Bailey.

"Dobbs says that he is a man who takes his medicine without complaining." "That's true, but he has a mistaken idea as to the medicinal value of alcohol."—Birmingham Age-Herald

Sermons in stones and god in everything.—Shakespeare.

It's a foolish man what sits down ter count his troubles, kaze dat only gives 'em another chance ter swat him.—Atlanta Constitution.

The clouds—the only birds that never sleep.—Hugo.

**TWO OCEANS MEET IN CANAL**

Culebra, Canal Zone, Oct. 10.—The great Gamboa dyke, the last remaining obstruction separating the waters of the Atlantic and Pacific oceans, was blown up at an early hour today. The event was the occasion for general celebration throughout the Isthmus. Much digging and cleaning out remains to be done in Culebra cut and along the route, but this will be accomplished by mammoth dredges floating on the surface of the canal.

During the period of construction the costs have steadily gone beyond the estimates, because of the increase in the excavating required. In 1906 the calculation was the making of the Culebra cut would involve the removal of 53,800,000 yards of earth. The final figures are just about double—a round one hundred million yards. In part this increase was due to a decision to widen the prism from 200 to 200 feet; in larger part the increase resulted from the exasperating movement of the soil.

The canal will cost—if no new

trouble starts—about \$400,000,000. The experts make the confident prediction that before it is long in operation it will yield in tolls a reasonable return in the way of earnings on the investment.

**MOSQUITOES AND MALARIA**

Chills and fever soon follow the deadly bite of mosquitoes. Ross' "Dead Quick" spray is a gnatling gun among mosquitoes. With it you can kill and drive them from your home in a jiffy. Nothing else like it. It kills insects and their eggs too. Sold in Bryan by E. J. Jenkins.

**MAY-TATUM**

Mr. Lee May and Miss Georgia Tatum, both of this city, were quietly married at 9 o'clock last night at the home of the bride, Rev. J. J. Tatum, father of the bride, officiating. A more extended notice will appear in the society columns of The Eagle Saturday afternoon.

**ALL READY FOR AIR RACE**

Paris, Oct. 10.—Everything is ready for the great international air race which begins here on Sunday next. Eight nations will have two or more representatives in the contest. The United States will have only two instead of three, as originally planned, because the third balloon entered is made of cotton and can not carry as much ballast or hold gas as long as a silk balloon. Pilots being equal in skill, the man with the greatest amount of ballast stays longest in the air, which is the main consideration in the international contest. To Ralph A. D. Preston and Ralph M. Upson, pilots of the Goodyear balloon that won the American elimination trial race last July, is America looking to win honors for that country. The winner of the international race will, in addition to the championship cup, receive \$2000; the second, \$1000, and the third, fourth and fifth, \$500, \$300 and \$200, respectively.
